

ContourFoam™

ContourFoam™, designed to mimic the original compression foam Reston™, allows for uniform compression after liposuction when used with compression garments.

Post-operative liposuction foam has been shown to reduce bruising and swelling. Our soft, open-cell foam is easy to apply and allows you to trim and cut the foam to fit even difficult-to-reach areas. Rolls will easily cover any post-op suctioned location, including the abdomen, legs, arms, face, and neck, using only one roll. Pre-cut sheets allow for custom compression in smaller areas.

- Uniform compression
- Reduces bruising and swelling
- Large size for seam-free application
- Flexible polyurethane foam for worry-free use
- Economical

B 89600 ContourFoam™ Rolls, Long
4 rolls (1/2" x 14" x 72") / box

B 89602 ContourFoam™ Rolls, Short
4 rolls (1/2" x 14" x 48") / box

B 89601 Pre-Cut ContourFoam™ Sheets
50 sheets (1/2" x 9" x 14") / box
